

**21st Symposium**  
**Types of Hospitals und Clinics in the Alps**  
**in the Early Modern Period**

23 September – 26 September 2015  
in Salzburg

German Society for the History of Hospitals

## **Invitation to the 21st Symposium in Salzburg, Department of History, University of Salzburg**

The German Society for the History of Hospitals invites you to the society's 21st symposium in the Austrian city of Salzburg. In addition to the oral presentations with an emphasis on the Early Modern Period, a varied programme of excursions will be offered: The focus of the city walk is on the historical hospitals in the city of Salzburg and the tradition-rich St. John's Hospital (general hospital). In two excursions we will visit the health care facilities in the region of Pongau (St. Veit) and the still-used hospital buildings in neighbouring Bavaria (Mühldorf am Inn, until 1802 an exclave of Salzburg).

In this way historical interest in care and support of sick and old people will be combined with questions relevant to the present.

In the name of the German Society for the History of Hospitals we invite you to come to Salzburg and its surroundings.

*PD Dr. Fritz Dross, DGKG (Erlangen, Department of History and Ethics of Medicine)*

*Ass.-Prof. Dr. Alfred Stefan Weiss, DGKG (Salzburg, Department of History)*

*Dr. Sabine Veits-Falk (Salzburg, City Archives)*

*Prof. Dr. Martin Scheutz (Vienna, Department of History)*

*PD Dr. Carlos Watzka (Graz, Department of Sociology)*
